Other standards incorporated by reference in any of the FAA "accepted" ASTM Consensus Standards

NOTE 1: Numbered topics are specified by the rule.

NOTE 2: Gyroplanes are not eligible for a special light-sport airworthiness certificate by the rule.

NOTE 3: Standards published with a number in parentheses indicate the year of last reapproval.

~ reapproval indicates a 2-year review cycle completed with no technical changes.

~ reapproved standards are considered accepted by the FAA without need for a Notice of Availability (NOA).

~ there is no need to identify the parenthetical year of reapproval on FAA Form 8130-15, LSA Statement of Compliance.

NOTE 4: Standards published with a superscript epsilon (ε) indicate an editorial change since the last revision or reapproval.

~ standards with a superscript epsilon (ε) are considered accepted by the FAA without need for a NOA.

~ there is no need to identify the superscript epsilon (ε) on FAA Form 8130-15, LSA Statement of Compliance.
